

Balloon Splash

Safety Instructions

1. Be sure that there is plenty of clearance between the player and spectators.
2. Keep spectators clear from the sides and back of canvas to prevent them from being struck by a deflected or errant throw.
3. If using game outdoors, it is strongly suggested that you use the stakes provided on either side of the bottom supports. Use sandbags on pavement. And in a breeze, use sandbags with the stakes.
4. NEVER USE THE GAME IN STRONG WINDS OR LIGHTENING!
5. Use caution when setting up or taking down the game. The sections of tubing can come apart and fall down causing injury.
6. Use only the character figures included with the game.

Balloon Splash

Splash Bomb Balls	12
Latex Balloons	3 bags
Balloon Harness	3
Stakes	4
Plastic Target (<i>screws into Arm One</i>)	1
Carrying Case	1

Balloon Splash

Assembly Instructions

1. Select a level area to operate game with plenty of room to allow for a line to form.
2. Assemble framework, per *Frame Set-up* picture. (Be sure to tighten down the fittings using the small bolts on them.)
3. Attach canvas to the framework using the Velcro straps. [NOTE: Your canvas is powdered to prevent it from sticking together during shipment. Simply remove powder with a dry cloth.]
4. If using game outdoors, it is strongly suggested that you use the stakes provided on either side of the bottom supports. Use sandbags on pavement. And in a breeze, use sandbags with the stakes.
5. Screw on the target.
6. Place the harness with the balloon on the pipe to the left (when facing unit). Be sure the needle lines up with the balloon.
7. The *Splash Bombs* are meant to be thrown wet. Keep a bucket of water nearby to soak them in.
8. Use only *latex* balloons.
9. If using indoors, purchase a small wading pool to contain the water.

Canvas Care

1. If game becomes wet, dry thoroughly before storing.
2. Fold the canvas INWARD to help protect and keep it clean.
3. Canvas can be cleaned with rubbing alcohol when necessary. If your game involves velcro, clean the hook and loop fabric with dry brush to knock out the dirt. If velcro fabric is badly soiled, use upholstery cleaner.
